From: Laura Lyons

Starting this week, if you are late clocking in or out for your shift, you will receive a phone call reminder 30-60 minutes after your scheduled clock-in or clock-out time.

You will only receive a phone call if you are more than 30 minutes late. If you do not want a reminder phone call, you can ask your coordinator to opt you out of the service.

Please contact your coordinator with any questions. Thank you!
